Distribution & Customer Service

Distribution takes place at the local level, where electricity has been transported from the transmission network to end-users via low-voltage lines, transformers, and local substations.

Customer service activities is interacting with end-users. This includes billing, customer service, and managing customer accounts through the company's smart meters.

Saudi Electricity Projects Development Company (SEPDC)

SEPDC functions as a subsidiary with limited liability under the Saudi Electricity Company, serving as its engineering division. SEPDC is responsible for vital activities such as project design, management, and overseeing the execution of projects.
